Ν

Be

Epimetheu

Aker

Prometheus

Cassandra

2022 is a year full of 2s. What do they mean – and what is the link between the number 2 and foresight

#### The symbolism of 2 in foresight

Afterthought Forethought

In ancient beliefs and myths, looking at the future was often associated with the number 2. The number 2 is not only the symbol of duality and dualism, it has also been associated with time through the ages.

The name for the month of January comes from **Janus**, the Roman god of beginnings and endings, thresholds and crossings, transitions and dualities. With his two faces, one looking forward and one looking backward, Janus had a knowledge and vision of both the past and the future.

January is the first month of the year and thereby marks the transition between past and future, ending and beginning.

> In Greek mythology, two In Greek mythology, two brothers, the Titans **Prometheus**, literally meaning in ancient Greek 'forethought', and **Epimetheus**, meaning 'afterthought', embody the contrasting perspectives of 'foresight' and 'hindsight'.

> The two brothers represent anticipation and forecast thinking on the one hand and *a posteriori* thinking on the other.

In Ancient Egypt, the God **Aker** also incarnates transition from birth to death as the guardian of the Underworld and of the Horizon. In Egyptian mythology, the West represents death and sleep and the East birth and awakening.

Aker is represented by two lions or twin sphinxes.

Another Greek myth associates foresight with pairs. The gift of seeing into the future was given to **Cassandra** (although tragically nobody believed her predictions) and her twin brother Helenus of Troy who is described by Homer as the best soothsayer.

This gift was also possessed by Apollo, the god of the sun as well as the god of oracles and prophecy, who is paired with another goddess, his twin sister Artemis.

#### How years and days featuring the number 22 changed the future

Many watershed moments or turning points in history happened in years or on days containing the number 22 and influenced the course of the future:

Portuguese sailor Pedro Álvares Cabral lands in Brazil

322 BC

End of Athens' hegemony in the Mediterranean

122 AD

Construction of Hadrian's Wall in northern Britain

622 Hegira: the prophet Muhammad starts his journey from Mecca to Medina

First recorded circumnavigation of the world

#### 1822

**Champollion deciphers** the hieroglyphics of the Rosetta Stone

#### 1922

Creation of the USSR Abolition of the Ottoman Empire

China's Ming Dynasty defeats the Dutch East India Company

#### 22 Oct 1751

The Russian Empire is proclaimed by Peter the Great

#### 22 Mar 1895

First demonstration of film technology by the Lumière brothers

#### 22 Oct 1962

JFK imposes a naval quarantine on Cuba

#### 22 Nov 2004

Start of the Orange **Revolution in Ukraine** 

22 Apr 2016

Signing of the Paris Agreement on Climate Change

#### 2 decades ago, the **EUISS was established**

In 2022, the EUISS celebrates its two decades of existence.

2002 was the year after the 9/11 attacks and the invasion of Afghanistan, the year before the invasion of Iraq, and the year in which euro banknotes and coins entered direulation circulation.

What were the predictions made about the future back in 2002? Some of them still ring true today.

The debate in Poland has not really addressed the question of the future role of the EU on the international scene. Moreover, it is doubtful that Poland could interfere with any of the Union's ambitions in that particular field, especially if one considers its current track record.

Rafal Trzaskowski, 'From candidate to member state: Poland and the future of the EU' (EUISS Occasional Paper no. 37, September 2002)

K Nuclear issues like Ballistic Missile Defence, the role of nuclear weapons, or the future of disarmament and non-proliferation, will probably become yet more transatlantic bones of contention, even if a possible attack against Iraq would not imply the use of Weapons of Mass Destruction.

Burkard Schmitt, 'US: Going Nuclear' (EUISS *Alert*, 1 September 2002)

Although a new policy for the Middle East is badly needed, we have chosen continuity. Now it seems that we are passively waiting for a new outbreak of violence, which will hit ue head\_on us head-on.

Martin Ortega, 'The Crux of the Matter: The Middle East after 11 September' (EUISS *Alert*, 2 September 2002)

( Until **Europeans have** a security and defence product which meets current requirements, Europe will remain unprotected against current threats. [...] Simple reliance on the United States is not the

answer. Julian Lindley-French, William Hopkinson, 'Arming for the Future' (EUISS *Alert*, 20 January 2002)

> Looking to the future, one can assume that while the new EU members will most probably be pro-integration oriented and reform-minded in the EU's wider institutional debate, they will be more conservative in the area of security and defence.

> Jiri Sedivy, 'Enlargement and European defence after 11 September' (EUISS Chaillot Paper no. 53, June 2002)
